

# XPRING

The open platform for money

WORKSHOP @ 10:00 PM CST

HackKU 2/7/20 - 2/9/20

# Xpring: the **open** platform for money

---

Open Standards

Open Source

Open Network

**Xpring** is Ripple's **open** platform for **money** that makes it easy for developers to integrate payments into their applications. The Xpring platform builds upon open-source software, open standards and open networks to allow for sending and receiving real-time payments in any currency.

---

# Xpring Challenges

---

We want to see real world applications that integrate **XRP** and/or **Interledger (ILP)** that are scalable. Incorporating an incentive model is just one of many ways you can integrate Xpring tools into your applications. Join us and learn more at the Xpring Workshop at 10pm CST!

Best use of XRP or ILP in one of the following tracks:

- Learning Track (for beginners)
- Financial Technology Track
- Smart Cities Track

Prize: Apple Watch Nike Series 5\*

\* Limit to four for the winning team
